

HackForge Coding Competition

Rules and Regulations

- 1.** Participants can use any programming language (e.g., Python, JavaScript, jQuery, etc.).
- 2.** Browsing and taking help from Google is allowed; however, the use of AI tools (like ChatGPT) is strictly prohibited.
- 3.** If registrations exceed 10 teams, the competition will be held in two phases:

Phase 1

A frontend task-based challenge with a total time of 1.5 hours. The evaluation criteria will be:

- Expected result
- Time taken
- Code quality and optimization
- Responsiveness
- The top 10 teams from Phase 1 will qualify for Phase 2.

Phase 2

A full-stack website development challenge. Points will be given based on:

- Time taken
- Code quality
- User experience
- Code optimization
- Error handling

4. If registrations are less than 10 teams, only one round will be conducted with a time limit of 3.5 hours. The task will be to develop a full-stack website, and the evaluation criteria will be:

- Time taken
- Code quality
- User experience
- Code optimization
- Error handling

5. Participants must adhere to the competition rules and be on time for the competition.
